

7. Butch Gardner

Bill Hunt property wanted Butch to partner with his back in 1981. Even when ownership changed he was still involved in farming it. Right now he has been paying Jeff Greer, but now it is sold to Circle K. He would like to continue to get and pay for the water that used to go to that property. SCID board says that unless Circle K wants the water, its ok for Butch to get billed for those 3 shares. UNLESS circle k comes to us and says that they want it. If it comes to that, then we will give Butch his money back for those shares.

Ramsay property – is it still being paid for? (Our books show that it's open)

Joe Papa – has he paid his bill? (Yes. He can't get water though. He is working on getting access to the ditch again.)

Butch is really concerned about the run time. He says that he got rid of it years ago when he added a new ditch.

8. Mike Bowman

Called Ross saying that his horse died because it didn't have access to water in the creek.

9. Excavator job

Kyle and Terry went and looked at where to start. It's a mess – lots of beaver dams. Starting on Ron Flake's property. Terry is going to talk to the people that we will need access to their property. Do we need to pull the dams out first? We can move the excavator all the way from Larson Ln to the main dam. Drop the excavator at Justin Burk's property.

10. Water tickets

Book changes. Lecia is going to get with Ross sometime this week to make sure everything is up to date.

How are we going to keep people from using the water if they don't pay. Ross is going to talk to Brig Turley to see if he can make some kind of lock.

Make invoices due on or before June 1st.

11. Bill for completed excavator work

Kyle will give invoice to Gus and will get a check on Thursday.

12. Quickbooks balancing

Do we need to hire someone to look at what's going on? Terry is going to talk to Bret Rapier.

13. Water Issues?

- ~~a. Adam Hanson — send bill for old pipe — Ross sent prices to Adam — Decided to talk to other neighbors to split the \$900 bill (Rufus Ward, Cooper Johnson, Candy Pundt). Terry will talk to the Ward's and the Pundt's.~~
- ~~b. Box by Restore Pro is leaking — Going to try to get some hydraulic cement or something to patch it up. Ross says it is still leaking, but slower now. Ross got it cemented it up. He's going put water back in it by the end of the week to see how it holds up~~
- c. Headgate in box by Lowery's — Ross ordered a new one. Ross has the new head gate. Fix from last time is doing ok. Ross will find time to put in. Still waiting. 14-16ft deep. Going to need something longer than the backhoe to get things in and out. Need a crane for maybe an hour. Talk to Jared Hatch and get something set up.
- d. Norman Baldwin — valve Ross wants to get going on that in the next couple of months. We will do it when the excavator gets to that part of the ditch. Need two 21" couplers, 21" bolted coupler. If he is going to use it this year, then Ross would be more concerned about getting it in this year. Kyle says that he would be farming it, and he's not too concerned about getting it done this year. Ross has a list of parts that it would take to get it installed. Norman was told that we would provide the T and the labor to get that put in. Ross did order a saddle that could go in place of a T.
- e. Randy Flake — valve Need to dig down and see what size pipe. Randy will pay for parts.

- f. Valve parts for ½ North – Need to check it when we finish E Snowflake and switch to Grass ditch
- g. Chad Brimhall – leak in front of house. He knows that he will have to pay to fix it.
- ~~h. Well with broken bolts – Ross spoke with the Scott Willis and asked to get on the schedule. We need an actual date so we know all the wells are going to be working.~~
- ~~i. Need to go through every electrical box to get them up to date
Terry has the parts and will get it put in.~~
- j. GPR – Ross wants to contact the people that made it so he can get trained on how to use it.
- ~~k. Box by Shavel's Ross got it cemented it up. He's going put water back in it by the end of the week to see how it holds up~~
- l. Box out on Concho leaking Ross is going to get down there while the ditch is empty.

14. Lake and pumping strategies – open/closed?

Mormon Lake diversion – closed

Mormon Lake outlet – closed

Ortega structure – closed

White Mountain Lake to Mexican – closed

Schoens – closed

15. Delinquent payments

- a. Report from QB –

16. Ross Willis, District Foreman report

Talked to Ray Turley and he does want his valve fixed.

17. Lecia Muder, District secretary report

Nothing to add

18. Kyle Baldwin, Report or instruction to staff

Wants to know how to help getting that excavator up and going again.

19. Terry Stratton, Report or instruction to staff

We need to send Aaron Solomon \$200. Does the check get made out to him?

20. Vance Muder, Report or instruction to staff

APS says that it's an E21 agriculture. They want to go back a little on our history. They will get back with us on what they can help us with.

21. Next Meeting April 1, 2025 at 5:00PM

22. Adjourn – 6:41pm
