7. East Taylor ditch. Keep on minutes. Call from Wyatt. None attended meeting but Wyatt said he represented SCID. Kyle needs help with filling out form. They want identity documents you own the land. Kyle asked for Vance to help with the document.

8. Sale of Ortega Lake Property. Vance signed documents. Holland had them make changes. Property to be returned in one year. Paper sent to title company. Waiting on \$100,000.00 check to be put in the construction checking account.

9. Shumway Well. (See Item d)

10. Water Issues?

- a. GPR – Ross wants to contact the people that made it so he can get trained on how to use it. Ross is going to call the company to get some training on it. Ross called and they are supposed to call him back to set up a training. Ross is hoping to get it sold and buy a snake with a camera from Home Depot. The GPR people said that there's a guy in Texas that might want to buy it. Ross still needs to get ahold of them.
- b. Need to clean out the concrete things at little Mormon lake – Ross says that there is a pack rat nest inside. He says that we need to get a mini-ex up there to clear it out.
- c. Need to make/repair catwalk at little Mormon lake – Ross has measurements.
- d. Shumway Well – Terry said we have a problem with the well. Not sure what it is. He has been ordered a braker and will change and see if it helps or they will have to get the well scoped. They had a meter on it and sent the data to an engineer in the valley. It records the hamper and the voltage before it trips. Willis drill came up and adjusted the bowls and it tripped when we left. Willis came again and adjusted and it ran for 2 or 3 days, but hasn't been hot. Well #1 will need to be checked on by the end of the year.

- e. **Leak on Willow Lane** – There is a leak by McCleave's in the middle of the field.
- f. **Kyle Baldwin** – Water is coming back in the fields thru the drain. Problem was caused by SCID when we raised the dam. Ross suggested a colvert and flap. 12 inch pipe. Vance says just buy the parts, we created the problem. Kyle said he would buy the colvert.
- g. **Couple of Inline Valves** - One on Concho Hwy; already Blue Staked. One by Don Shumway; getting hard to shut up. Already they fixed 3 inline valves this last month. Vance has one more to add; over on Vance's, upper valve. Located by Palmers. Someone ran over it 3x and needs a new stem. Let Vance know when done so he can put Rocks around it so they can't run over it again. Ross said they would try and put another T post over by Don Shumway's or a Rock.
- h. **Beaver problem in Shumway** – Canyon area where you can't get an excavator in. Get traps to catch them. Ask Sal if he wants to do it. Ross said he could ask Dillan. Sal maybe ready to quit. If we talk to Game and Fish they would relocate.
